

Below is our 6-step response to the COVID-19 pandemic.

1. Following all state and government guidelines

We are encouraged to know our government and health officials are addressing the unique needs of summer camps in order to open this summer. We are looking forward to guidelines set forth by our state and local officials as promised by our governor.

2. Upgrading cleaning protocols

Tennis Success, Inc. is upgrading our already high standards of cleaning. We are adding to our disinfection practices especially in high traffic areas. All areas of cleanliness will include more rigorous practices and increase in frequency throughout the day.

3. Screening Campers and Staff

We are working to develop proper screening techniques for campers and staff. Screening will start with YOU, the parents at home, two weeks before your camp session. If your camper is ill or has symptoms, please notify us immediately so that we may discuss alternative options. We will be screening staff during that time frame as well. Additionally, campers and staff will be given a health screening to ensure everyone is healthy upon arrival. These extra measures help create the healthiest environment possible so our campers can have the best time this summer.

4. Emphasizing Cleanliness and Personal Hygiene

Campers will know that personal hygiene matters, even at camp ... especially at camp. An abundance of hand sanitizer, good ole' fashion soap and water and all the recommended hygiene practices will be generously woven in our daily schedules.

5. Adapting Check in and Check Out

We all want what is best for kids to be able to enjoy the safest and most fun time at camp. This means check-in and check out may be different. One of the keys to prevent an outbreak at camp is limiting outside guests to a minimum. We realize this will be a challenging adjustment for us all. Rest assured we are committed to check in being a welcoming and reassuring experience. Thank you for being willing to help us create the safest environment possible for your kiddos.

6. Responsive Isolation Protocol

In the event someone should show symptoms of COVID-19, we will take responsive isolation actions. Just like every summer previously, we have isolated areas available in the event anyone has a communicable disease. We will follow the latest government guidelines throughout the summer as to our policies for sending a camper or staff home due to illness and we will enact our COVID-19 response protocol.

If you have further questions about our COVID-19 response, please email us at tennisuccess@outlook.com.
